

MADE LOCALLY. MADE TO LAST.

Panel Glides

Give your home a fresh, new look, adding value and style.

- unique design
- innovative
- modern

privacy and sun protection

huge range of fabrics

lightweight, easy operation

The Watson's Panel Glide system is a modern, innovative option for large windows, sliding doors and bi-fold doors offering protection from the sun and privacy from the outside world. The beautiful wide fabric panels reflect the popular minimalist decorating style, are easy to operate and can be quickly moved out of the way when you need to clean. The system includes flat fabric

panels attached to a trouble-free head rail system using roller-mounted carriers that make it very lightweight and easy to operate. The innovative installation options provide versatility and flexibility. The range of fabrics and colour options means you can choose from block-out, translucent and sunscreen fabrics for maximum protection from the sun.
