

ELEMENTS

100 % PREMIUM ACRYLIC THE PERFECT COMBINATION OF TOP QUALITY DESIGN AND TECHNICAL FUNCTIONALITY

Sattler exclusively uses solution-dyed premium acrylic for its awning fabrics. Following our recommended care and maintenance program will ensure years of performance, even in the harshest outdoor environments.

100 % ACRYLIC STAPLE FIBRE

AWNINGS FROM SATTLER SOLUTION-DYED ACRYLIC ENSURE QUALITY IN EVERY FIBRE.

Solution-dyed means that the pigment is already added to the yarn during the manufacturing process. Therefore, colours are stronger and last longer with Sattler fabrics.

With inherent UV resistance, solution dyed acrylics ensure years of outdoor performance and stability.

Combined with TEXgard, Sattler's exclusive finish acts as a protective shield to the fabric, water beads off the surface and provides a dirt resistant finish.

In our ELEMENTS range, **textured acrylic yarns** are woven together. This creates a unique textile character.
