

# INTERNAL PRODUCT RANGE

It's what's on the inside that counts

## Our People

From just two people in 1968, Watson is now home to over **150 locals**. Team members like Deb and Ange, have between them worked with us for **nearly 50 years**.

**Our people are the heartbeat of our business and we'd never be where we are today without their loyalty and dedication.**

It's been an absolute pleasure to serve the people of Canberra and surrounding regions for over 50 years. Being given the opportunity to provide tailor-made window covering solutions for generations of Canberra families has been so fulfilling, and watching the change in trends and technology has kept the work exciting to this day. The team at Watson Blinds & Awnings would like to thank all of our valued customers; I hope we can continue providing top-quality products and service for many more years to come.

# Welcome to the Future

## Controlling Your Window Furnishings Has Never Been This Convenient

Welcome to the future of convenience and sophistication in home automation! At Watson, we pride ourselves on offering cutting-edge motorisation solutions that elevate the way you interact with your blinds and awnings. Say goodbye to manual adjustments and embrace a seamless, technologically advanced lifestyle featuring the world's top brands: Somfy, Acmeda, and Becker.

Our blinds are equipped with state-of-the-art sensors, allowing them to react to changing elements such as wind, motion, and sunlight. You can even control your blinds from the other side of the world, ensuring your window furnishings are tailored to your preferences.

Choose from Wirefree, Remote and Hardwired options - even able to talk to your building management system.

### Features and Benefits:

- ✓ Blinds/ awnings will raise or lower/ open or close based on location for precise and automatic light control
- ✓ Additional scenes and timers to establish custom schedules and set timers
- ✓ Voice-activated shade control
- ✓ Sophisticated shade control straight from any iOS or Android smartphone or tablet
- ✓ Group shades by room or scene

### Voice Control:

Transform your living space with the power of your voice. Our motorisation systems are compatible with popular voice assistants like Amazon Alexa and Google Assistant. Simply command, and watch as your blinds gracefully respond, creating the perfect ambience with just a few words.

### Wall Switches:

For those who appreciate a tactile touch, our wall switches provide a traditional yet modern way to manage your blinds and awnings. Elegant and user-friendly, these switches offer intuitive control at your fingertips. Effortlessly adjust settings and create the ideal atmosphere with a simple press.

### Home Automation Integration:

Experience the ultimate in smart living by seamlessly integrating our motorisation solutions with your home automation system, offering unparalleled control through popular platforms such as Google Home, Alexa, and Apple Homekit.

Our products seamlessly blend into your existing smart home ecosystem, so you can enjoy centralised control and create customised scenarios to suit your lifestyle.

### Remote Controls:

Embrace the freedom of control from anywhere in your home. Our compact and stylish remote controls put the power of adjustment in the palm of your hand. Effortlessly operate your blinds and awnings with precision, ensuring your environment matches your mood and needs at all times.

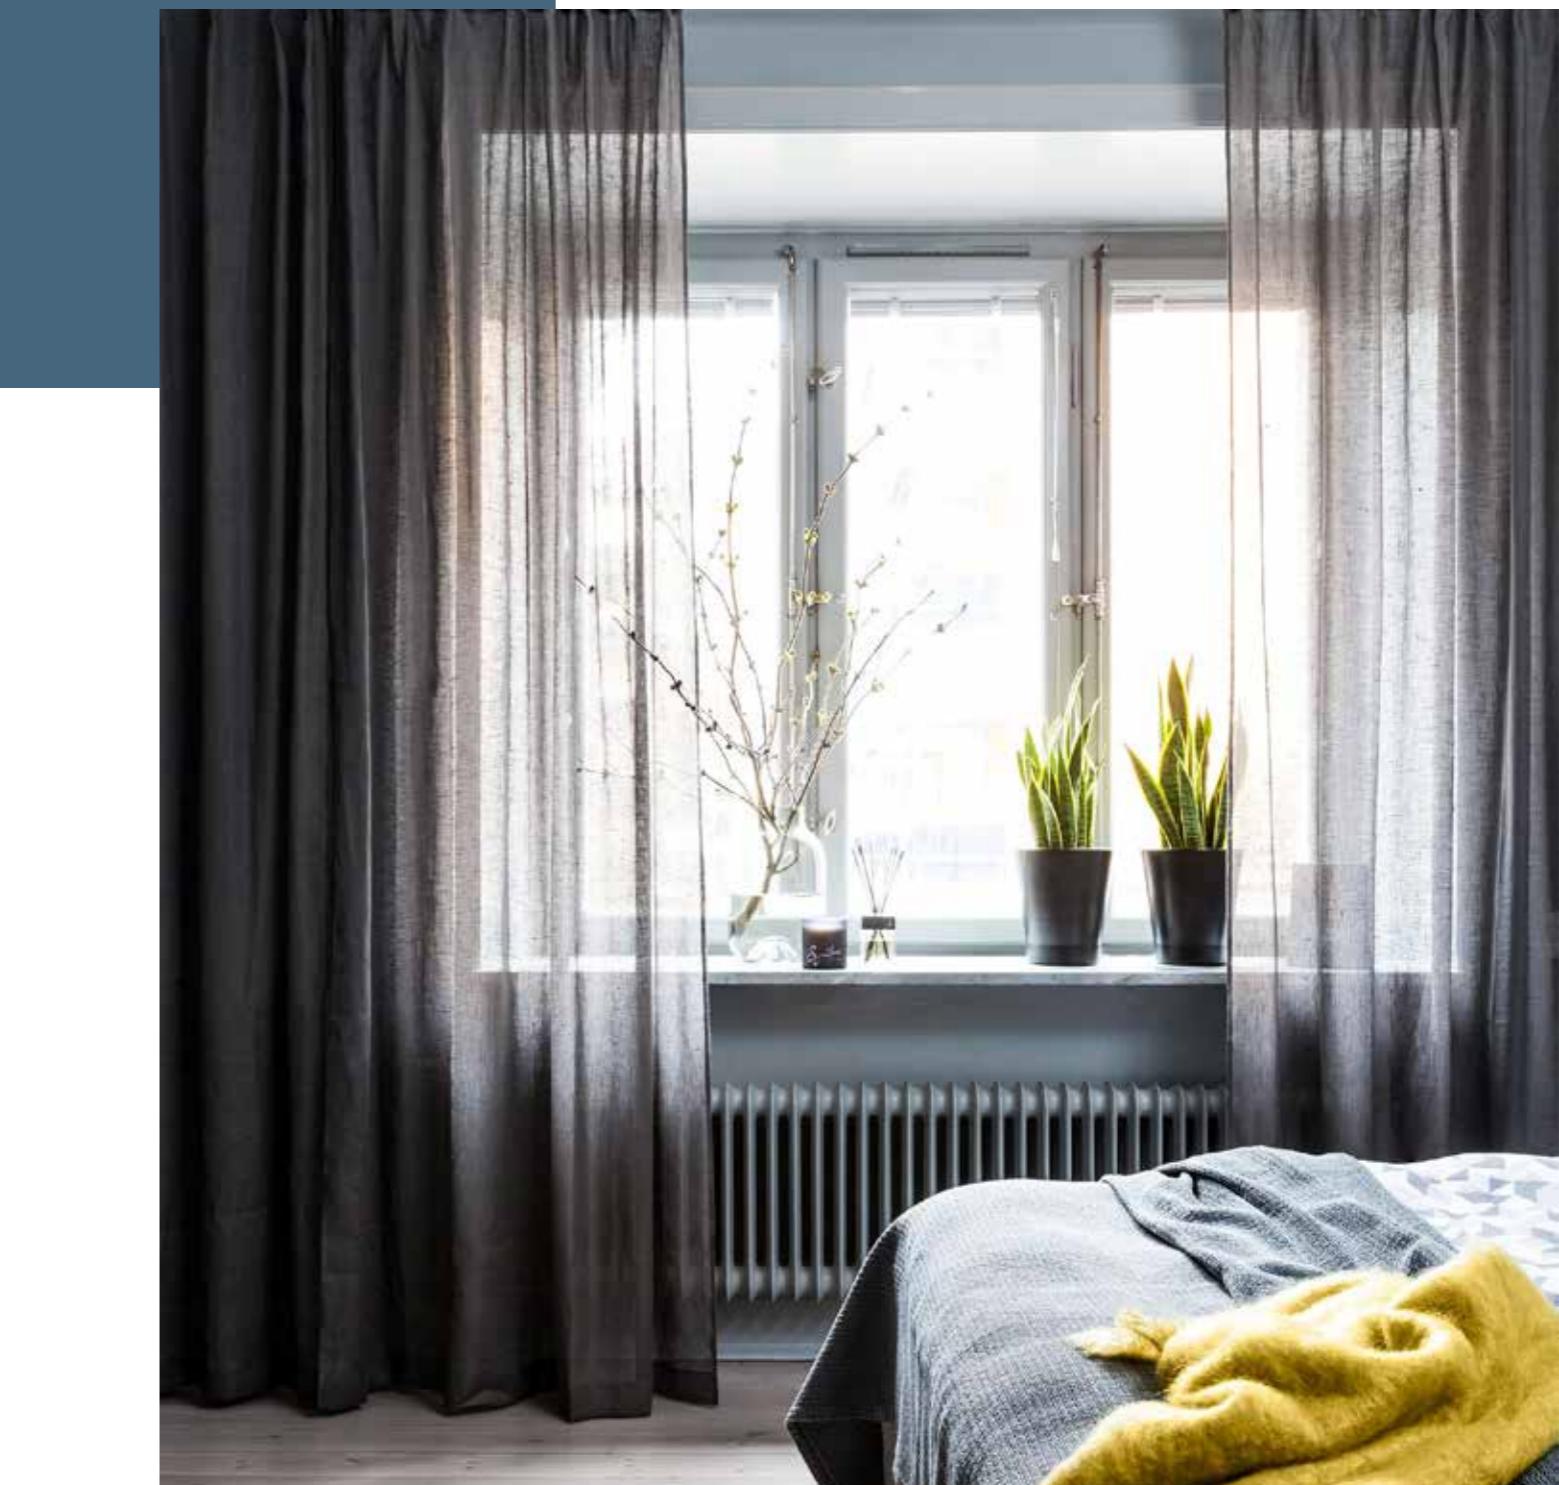

# Curtains & Sheers

## A Touch Of Elegance

Curtains today are a timeless, contemporary window furnishing option that define the interior design style of every room. They bring an abundance of functional benefits, such as complete control over the temperature of a room and superior light filtration.

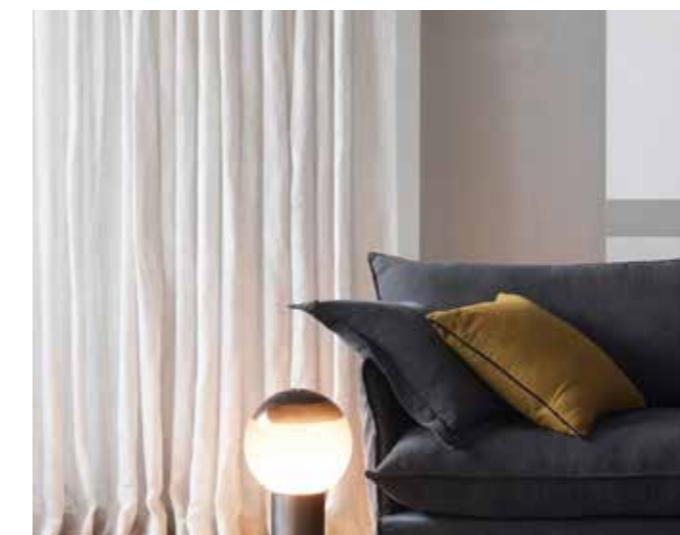

With supreme insulation capabilities and an array of options to match even the most stylish space, curtains can transform a room from boring to beautiful without the huge price tag. If you're looking to add sophistication and a little pizzazz to your décor, sheer curtains combined with some decorative banding and trims can create a sense of elegance and refinement in any room.

With a diverse range of styles and fabrics available, there's something to suit everyone. Our curtains are custom-made to your specifications. We have a dedicated team in our curtain workroom, manufacturing all our curtains in-house and by hand, so we're quite serious about it.

### Features and Benefits:

- ✓ Reduce your energy bill up to 33%
- ✓ Full privacy & light control
- ✓ Up to 10 years Quality Guarantee
- ✓ Region's widest selection of curtain fabrics
- ✓ Custom-made locally
- ✓ Full privacy and sun protection
- ✓ Free expert measure and installation service
- ✓ Add timeless style and elegance to your living spaces
- ✓ Match fabric and colours to your existing décor
- ✓ Blockout curtains provide great insulation

## Blockout Curtains

Much like the name suggests, blockout curtains keep out all unwanted light and also an excellent option for providing maximum insulation.

### Features and Benefits:

- ✓ Ideal for bedrooms and spaces where you want full privacy and light blockout
- ✓ Provides UV protection & insulation
- ✓ Reduces energy bills
- ✓ Blocks out unwanted light and noise from outside
- ✓ One, Three or Four pass lining options in a range of fabric selections adds a level of sophistication and density to your look

## Sheer Curtains

Translucent fabric, bringing grace and softness to any window. Sheer curtains provide privacy, while also filtering the light beautifully in any room.

### Features and Benefits:

- ✓ Adds softness and a sense of comfort to any space
- ✓ Sheer fabric allows for some privacy while still filtering sunlight
- ✓ Combine with blockout blinds or curtains for the best of both worlds
- ✓ The most 'on-trend' window furnishing in Europe and Australia at the moment, with lots of organic fibre options lightening the room and changing your space for any intended look

## Double Curtains

Usually a sheer and blockout curtain installed on a double track. Enjoy either full blockout when you need it, or the perfect amount of filtered light flowing through your home when you want it.

### Features and Benefits:

- ✓ One window. Double the benefits
- ✓ More insulation at night time + daytime privacy
- ✓ Blocks out sunlight and unwanted noise
- ✓ Diffused natural light and filtered view for ambience
- ✓ Typically the combination here includes a sheer curtain backed by a full blockout curtain
- ✓ Lining is usually layered behind sheers or uncoated fabrics

## Lined Curtains

Curtain lining protects the curtain's durability and creates a feeling of 'fullness'. Linings are also great for insulation and full light blockout.

### Features and Benefits:

- ✓ Lining prevents fabric fading from the sun
- ✓ Fabric flows and falls more evenly
- ✓ Helps keep out noise, sunlight, heat and provide more privacy

## Soft Weave Curtains

Also known as dim-outs, the key attribute of this fabric is that it's specially woven to ensure that the amount of light penetration is greatly reduced - typically by up to 90% without having to add a layer of lining attached to the curtain.

### Features and Benefits:

- ✓ A minimal amount of light can pass through; ideal for low-light settings
- ✓ Their composition means these curtains have a beautiful soft finish for a homely feel
- ✓ Offers comfort, warmth, and privacy
- ✓ Very durable and easy to wash and then rehang

## Choosing Your Floor Clearance

How low or high do I go? Should they sweep the floor or should I stop at the floor level? There's no right or wrong answer; just a choice that'll make the most sense for your space.

### Watson options

1. Just above the floor - the most popular due to most floors in Australia being slightly uneven.
2. Touching the floor, just.
3. Puddling - you tell us how much puddling on the floor you want to give a super premium look.
4. Short drop - for curtains you don't want to go all the way down to the floor level.

## Pelmets

Complete your window furnishing with pelmets for a sophisticated, tailor-made finish to your room, maximising light control and insulation.

We offer three different ranges of Pelmets: Bonded, Padded and Painted Timber pelmets.

**TIP:** Use pelmets to hide operational components so internal mechanisms are well-hidden.

## Tiebacks

Practical and decorative. Pull your curtains to the side for a lighter, more formal look with tie-backs. Choose from a range of tie-backs in different shapes, sizes and finishes.

Custom design your own look and feel by choosing the fabric, style, size and trims.

# Choosing Your Heading Style

A curtain 'heading style' refers to the way it's sewn at the top. Why is this important? Because it has a direct effect on the style and practicality of your curtains. Not only does it dictate how it looks, but also how it cascades and how neatly it gathers when pulled to a side.

Let's take a look at the most popular and of course, practical heading styles. If you have something specific in mind that we don't cover here, just let us know.

## Single Pinch Pleat

The single pinch pleat creates neat, uniform folds, adding a tailored and refined look to your curtains or drapes. Perfect for both traditional and modern interiors.

## Box Pleat

The flattened pleats create a smart, tailored appearance and work particularly well with silks and plains to suit a clean, minimal style of interior.

## Double Pinch Pleat

Pleats pinched in a group of two and tailored to your specifications. The pleats neatly stack on the sides, giving your space a classic touch.

## Pencil Pleat

Pencil pleats are a classic and versatile curtain heading style, characterised by tightly gathered folds resembling a row of pencils.

## Triple Pinch Pleat

Triple pinch pleats feature three evenly spaced pleats gathered tightly, offering a structured and formal aesthetic that complements various interior styles.

## Knife Pleat

Embrace the clean lines and modern aesthetic created by sharp, angular folds that define this unique pleating technique.

## S-Wave

S-wave curtains present a modern and minimalist look, showcasing gentle undulating waves that gracefully flow across the fabric offering a softer alternative to traditional pleats.

Pencil Pleat Curtains

S-Wave Sheers

Box Pleat Curtains

## Choosing Your Curtain Tracks

Picking the right curtain track helps with: Aesthetics and Practicality.

Our standard, high quality powder-coated aluminium tracking system complements the curtains and gives your room the perfect finishing touch.

### Double-Tracks

We offer a range of track options to complement any heading style. Double tracks allow you to layer your curtains the way you want to, and is a lovely way to add texture and elegance to any space.

Tracks can be cord-drawn, hand-drawn and motorised for easy operation and your convenience.

### Why Opt For Curtain Tracks?

- ✓ More discreet than curtain poles
- ✓ Suited for both statement/ simple window furnishings
- ✓ Can be easily fitted to any window
- ✓ Painted to match the wall behind for an 'invisible' look.
- ✓ We also partner closely with Oslo, Forrest Hardware, Silent Gliss and Somfy for all the latest in curtain track innovation

**\*\*Custom colour tracks can be powdercoated to colours within the Dulux range.**

## Choosing Your Banding And Trims

For a decorative finish or pop of colour, we can add banding and trims across the top, bottom or sides of your curtains.

For a subtle finish, opt for a complementing fabric; or make a bold statement by adding dramatic colour contrast.

**TIP:** Pairing a heavier fabric with a sheer fabric is a great way to add texture and enhance your décor.

## Choosing The Right Fabric Style

Sit tight. Our in-home style experts will bring our selection of fabric samples to you.

We help you assess what works best with your vision, and walk you through each fabric type's features including:

- ✓ Weight
- ✓ Transparency
- ✓ Flexibility
- ✓ Resistance to fire and the harsh Australian sun

**TIP:** Hold the fabric sample up to a window to see how it filters sunlight. What's the mood of the room? Is it formal, casual, comfortable, quiet? This will influence the fabric type you go for.

### Why Our Fabrics?

- ✓ Provides thermal insulation and keeps your home warm in Winter
- ✓ Locally Made in Australia
- ✓ Region's largest colour & fabric range
- ✓ Fade and fire resistant
- ✓ Full privacy when you want it, the perfect amount of light when you need it
- ✓ Stain resistant: Easy to clean and maintain

# Verishades

## Softness of curtains and versatility of blinds

Meet the world's most stain-resistant window blinds.

We love the soft flowing elegance of curtains, but there's just one problem - they're either open or closed, no in-between.

If you're looking for something that combines the elegance, softness and style of curtains with the versatility of blinds, then look no further: Veri Shades are in a class of their own.

Its unique patented design includes a soft, yet durable fabric that hangs luxuriously like curtains, while the supple folds operate like blinds to provide privacy, superior light filtering and airflow control.

There are no cords or chains, and when you walk through them – it feels like silk. The panels simply sway out of your way and settle back perfectly.

Dubbed the 'Clever Curtain', the two-sided individual folds transition from translucent to opaque at the simple turn of a wand, allowing you to customise your space however you please.

### Explore Your Options Fabrics:

With a variety of high quality and stylish fabrics available in a range of colours and sizes, we can help you create Veri Shades that are uniquely yours.

- ✓ Fire retardant options available
- ✓ Easy-care fabric: Resistant to fading and soiling
- ✓ Soil-resistant fabric folds: Can be individually washed or replaced in seconds

### Choose Your Fabric Type

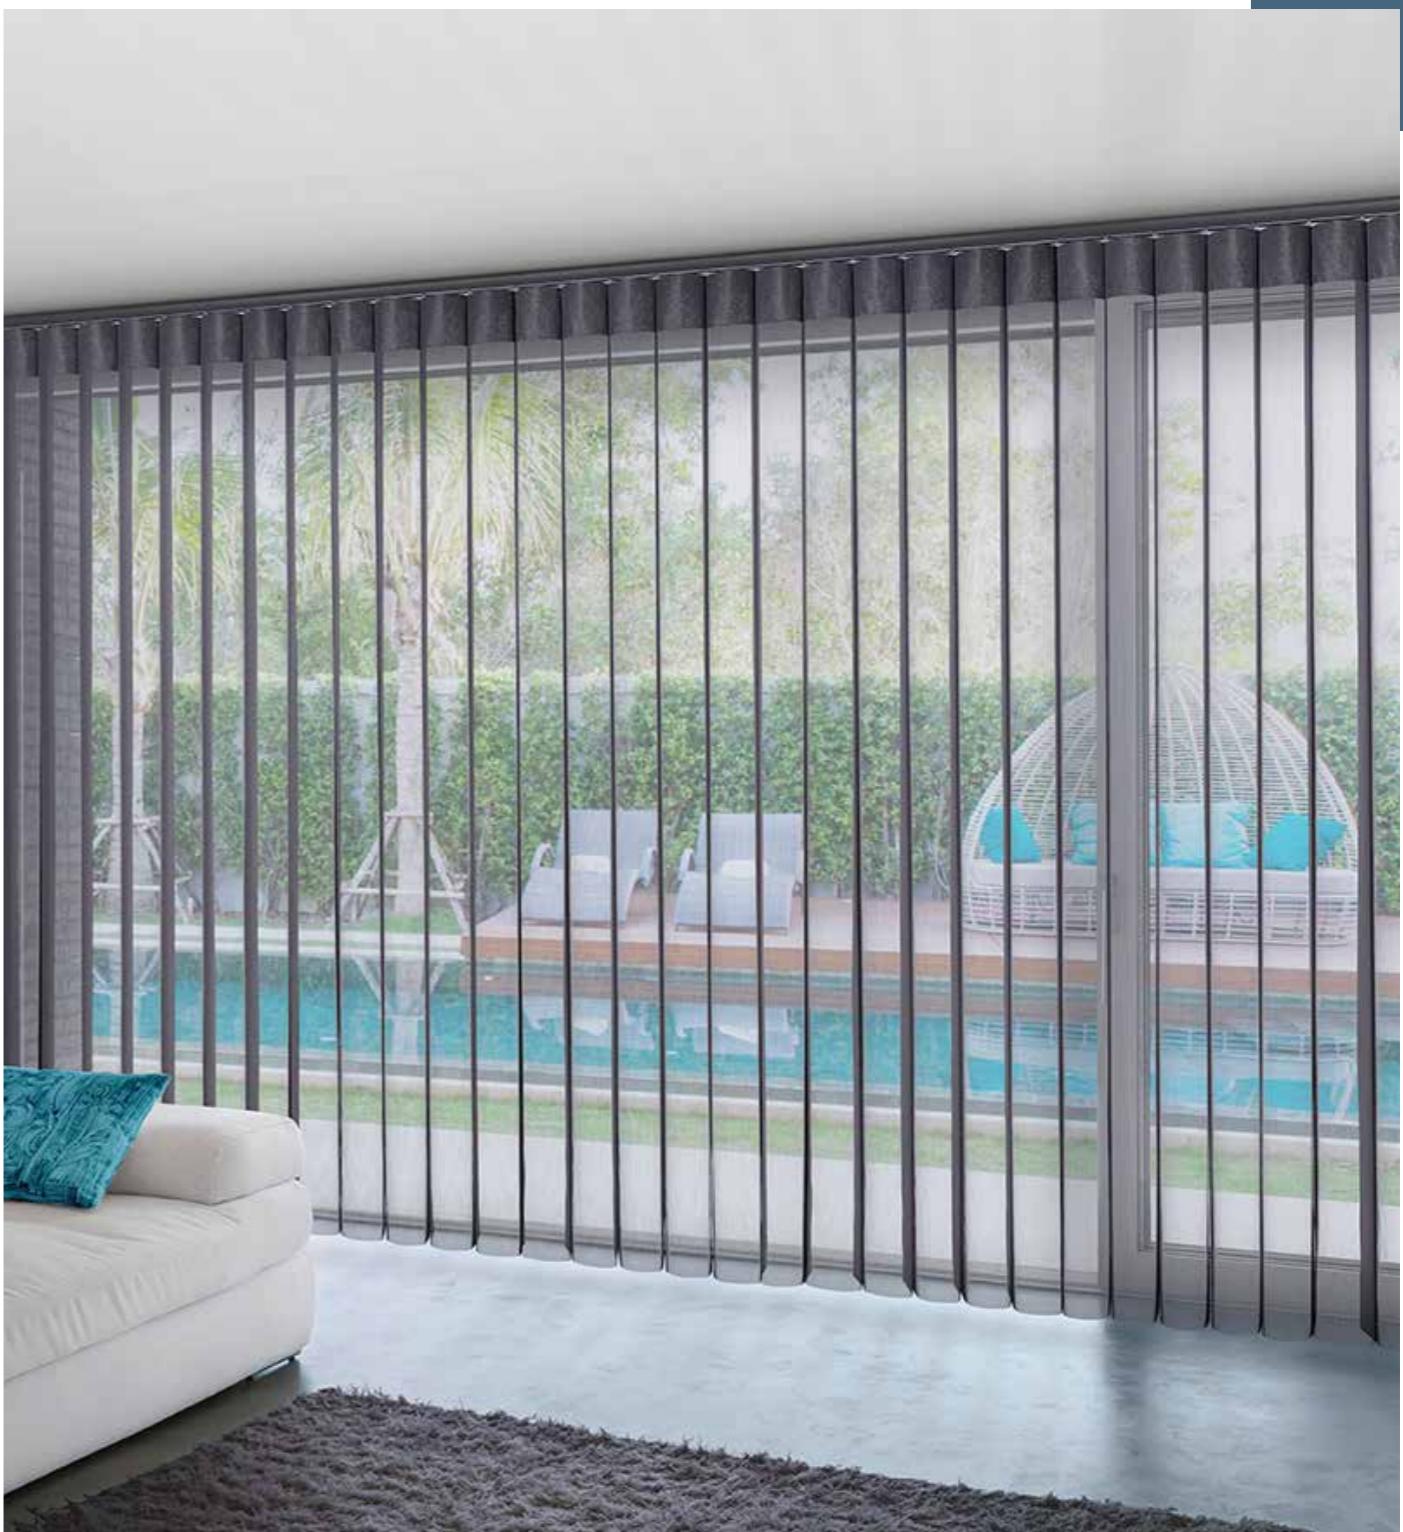

- ✓ Modern Geometric Mesh (Standard), Timeless Net Pattern (Net), Mist, Autumn, Alpine, Eclipse, Luxury, Privacy, Classic/ Classic S

### Choose Your Colour

- ✓ White, Soft White, Ivory, Beige, Slate, Charcoal

### Track Options

Hand-operated and motorised track options available.

### Specifications:

**Composition:**  
100% Polyester Woven Fabric

**Weight per g/m<sup>2</sup>:**  
(Bonded & Mesh) 300 +/- 1%

**Maximum blind width::**  
6m

**Colour fastness:**  
4-4.5

**Ultraviolet Protection Factor:**  
UPF 50+

### Features and Benefits:

- ✓ Spans up to six metres - Ideal soft feature across a large opening
- ✓ Looks like curtains, functions like blinds
- ✓ No weights or chains to worry about so you can walk through freely when open or closed
- ✓ Versatile, practical, durable, easy operation
- ✓ Low maintenance, stain-resistant
- ✓ 100% child and pet-friendly

# Roller Blinds

## Give Your Space Timeless Style

Did you know that over 60% of the air lost in a home – both in Winter and Summer – escapes through your windows?

Glass windows are poor insulators, and without a proper window furnishing you could be paying 30% more on your energy bills than you need to. Take your pick from our extensive and exclusive range of fabrics in luxurious textures and patterns, all of which are designed to withstand Australia's harsh weather conditions.

Whether it's a blockout fabric for bedrooms, moisture resistant print for bathrooms, dinosaur prints for the kids' room or fruit pastel prints for your kitchen, they're customisable to suit your unique needs.

### Specifications:

**Maximum sizes:**  
Up to 3400mm (Width) x 2600mm (Height)

**Fabrics:**  
Sunscreens + Sheers +  
Translucents + Blockouts

**Privacy:**  
Varies with the fabric chosen

### Features and Benefits:

- ✓ Manufactured locally
- ✓ Lifetime Warranty
- ✓ 100% child-safe
- ✓ Unmatched price for local quality
- ✓ Motorisation available

# Blockout Roller Blinds

- ✓ Provide ultimate light control
- ✓ Blockout light for a perfect sleep
- ✓ Great for ensuring your privacy
- ✓ Recommended for bedrooms or windows facing the sun
- ✓ Motorised option for added convenience
- ✓ Enhanced insulation

## Roller Blinds

### Sunscreen

- ✓ Softly disperses sunlight
- ✓ Enjoy views during the day while maintaining privacy
- ✓ Reduces heat entering the room
- ✓ Great for kitchens/ dining areas/ living spaces
- ✓ Motorised option for added convenience

### Light Filter

- ✓ Filters sunlight for a pleasant, living atmosphere
- ✓ Provides solid UV protection
- ✓ Enjoy full privacy with a bit of natural light flowing in during the day time
- ✓ Popular choice for windows in common areas
- ✓ Motorised option for added convenience

## Roller Blinds

### Double Roller Blinds

- ✓ Best of both worlds in one simple mechanism
- ✓ Two different blind systems running on the same bracket; switch between Blockout for ultimate privacy or Sunscreen to let the sunlight in
- ✓ Motorised option for added convenience

## Roller Blinds

### Insulation Extras

Did you know that 60% of the cold you're feeling in your home right now is from cold air seeping through your windows? That wouldn't be the case if you had the right blinds with a headbox and side-channels that ensure none of that horrible cold air finds its way in! Plus, you get to block out all of that unnecessary light peeking through when you're trying to sleep.

They keep the cold air out in Winter and the hot air at bay during Summer too, so your home stays nice and cosy year-round.

Feeling overwhelmed by products and choices? We understand. That's why we bring the showroom to you. Our expert consultants are on hand to help you find a style that matches your individual taste and enhances your existing décor.

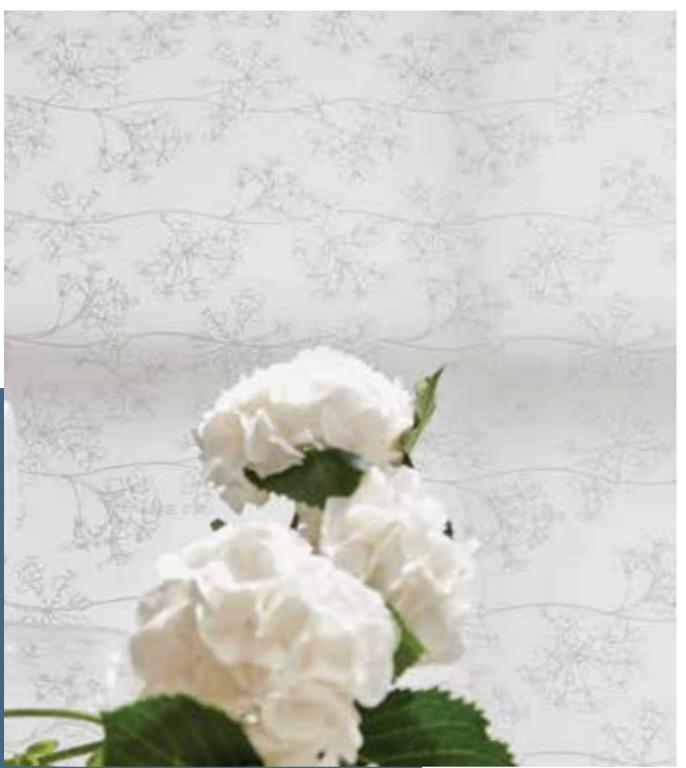

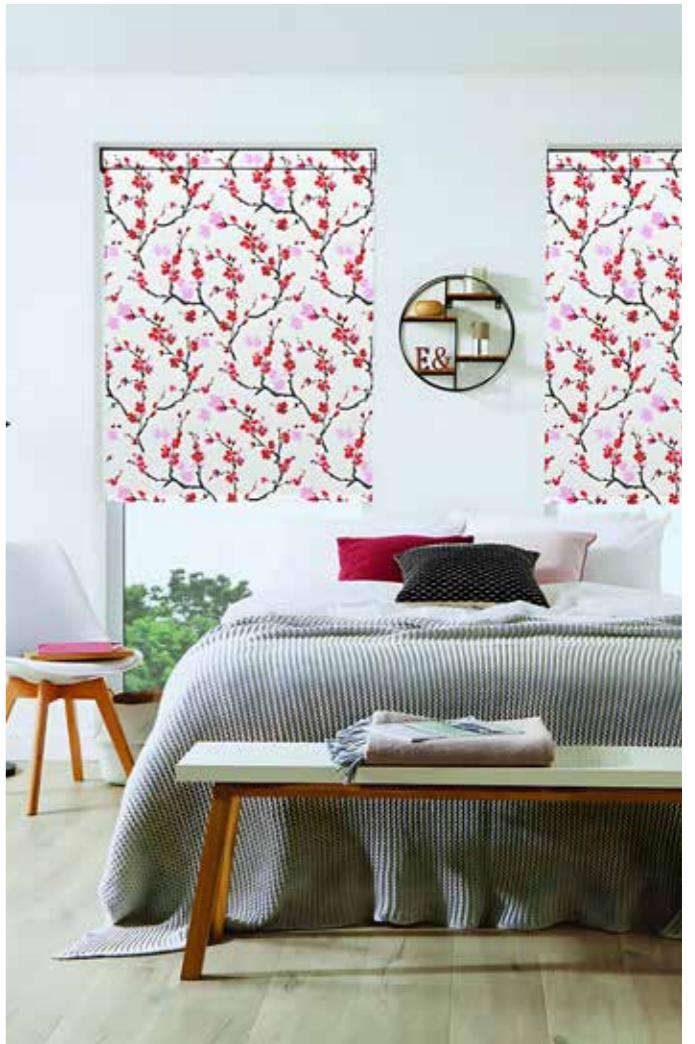

**TIP:** Personalise your blinds with the addition of a headbox and side channels. Not only do they provide improved insulation, they're also great for a more streamlined, neater look:

**Headbox:** Seal light gaps, hide mechanism components

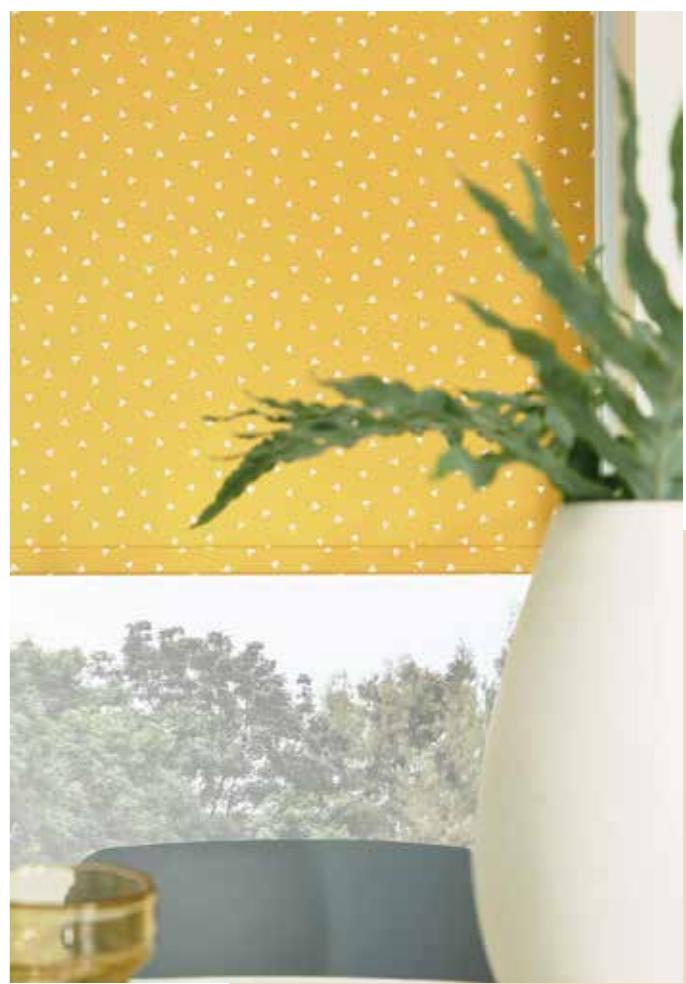

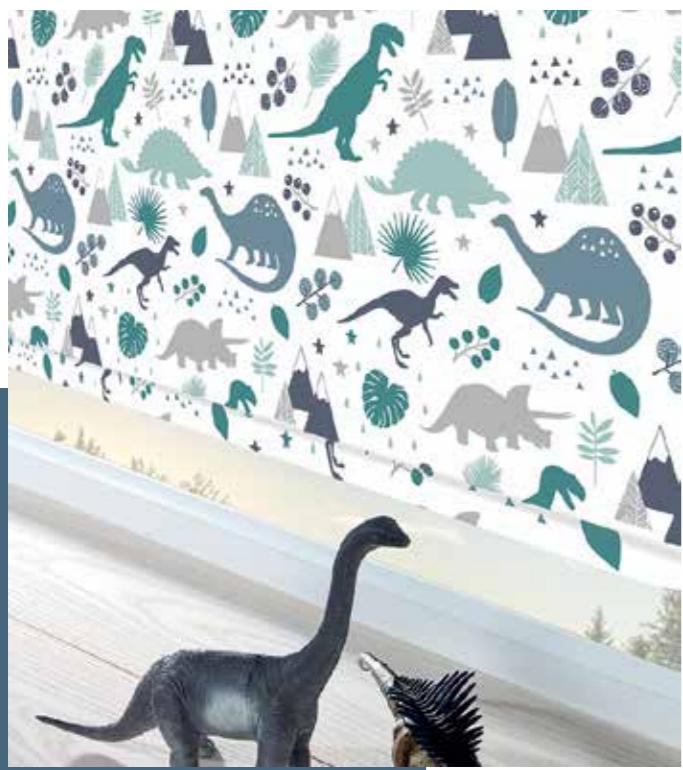

**Side Channels:** Seal light gaps, keep out cold air

A pattern and colour to suit every taste...

# A little something for the little ones

# Roman Blinds

## Want Total Privacy In Style? Do As The Romans Do

Much like the Egyptians, the Romans were inventors too. Once again driven by functionality rather than aesthetics, they created a version of the blind that we've now come to call 'Roman Blinds'.

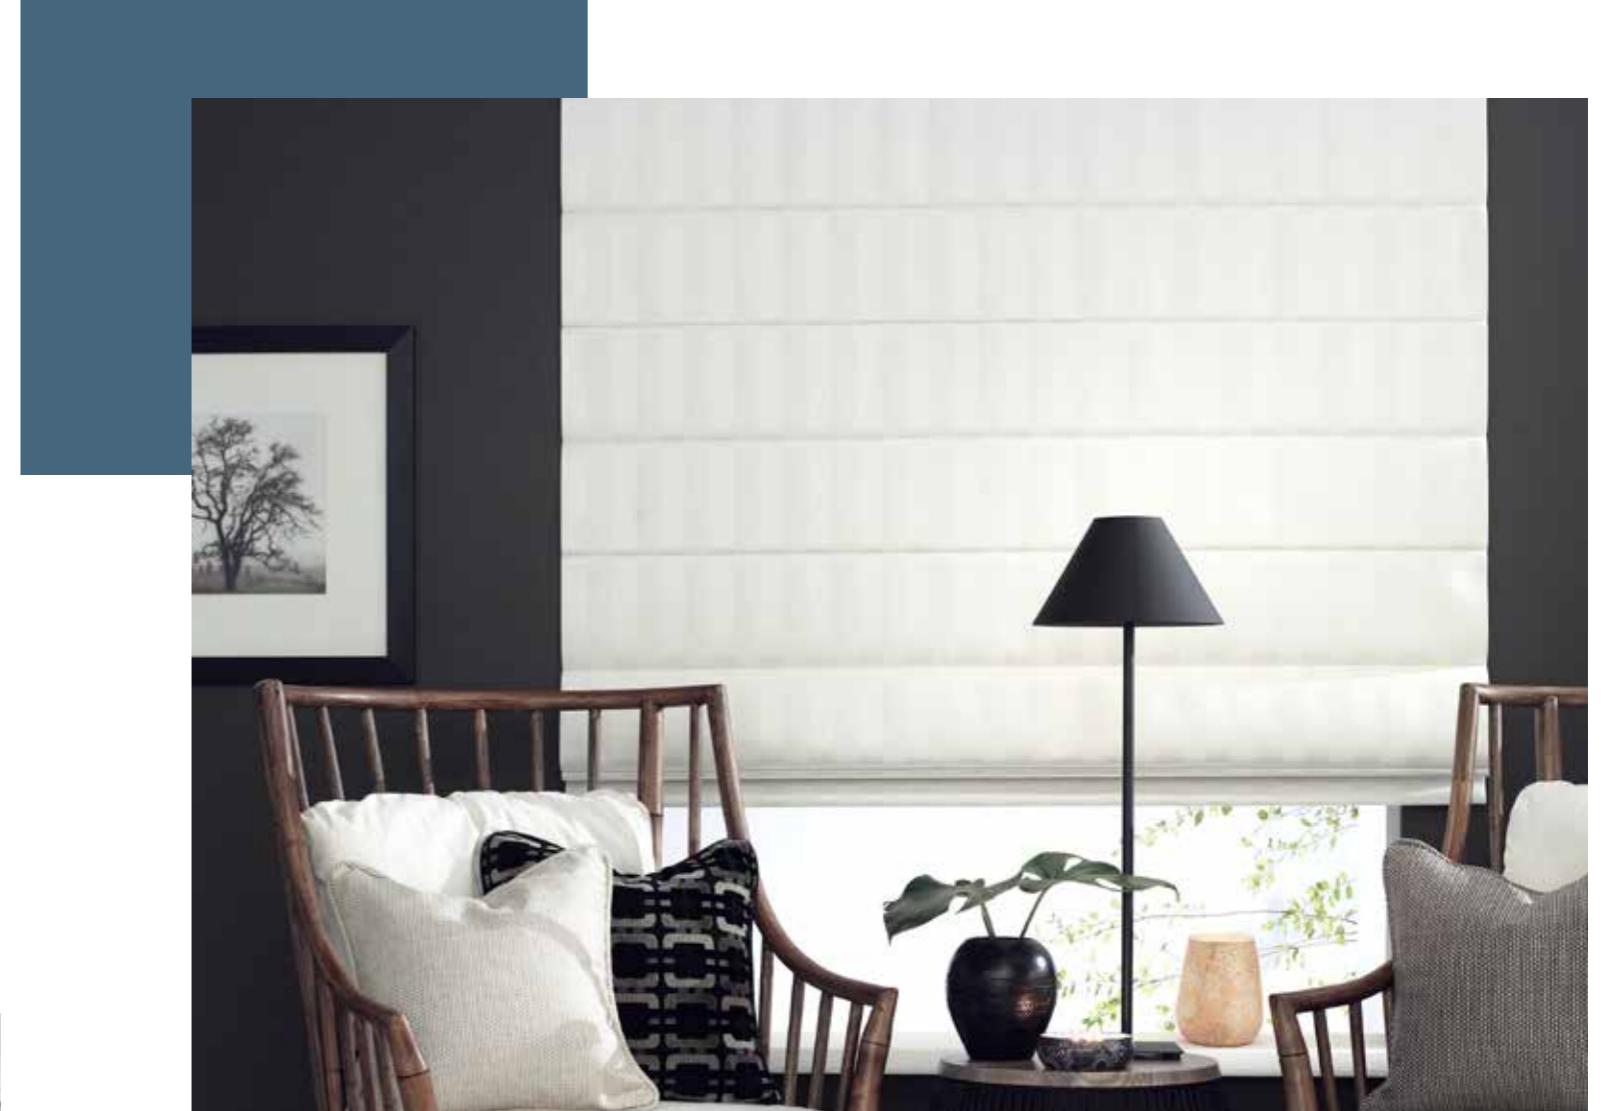

What was born as an effort to keep out dust and offer protection from the Mediterranean sun, is today an elegant window furnishing option for any abode. At Watson, we try to honour the Roman love of elaborate décor and ornate furnishings through our designs.

Pairing a striking look that combines soft fabric panels with a functional operating system, Watson Roman Blinds are a contemporary solution for your window coverings.

With a large range of fabrics available, including translucent and blockout options, there's a perfect fabric for every home and budget.

Opt for a translucent finish to create a gentle, filtered light effect, or choose a blockout fabric to ensure total darkness and preserve your privacy.

No matter what you choose, the textured panels and elegant gathering of the Roman Blind fabric makes for a contemporary look that suits any budget or interior design scheme.

**TIP:** They're perfect as a stand-alone blind or as a complement to curtains.

### Features and Benefits:

- ✓ Offers a clean, flawless look
- ✓ Perfect for areas with no space for curtains
- ✓ Ideal for softening the atmosphere of a room
- ✓ Choose from remote-control, chain or cord operation
- ✓ Soft fabric panels with a simple, streamlined operating system
- ✓ Designed to sit wider and above windows to improve insulation and light blockage

# Panel Glides

## Transform your living space

With their contemporary design, Watson Panel Glides provide a stylish option for privacy and sun protection.

The Panel Glide system is made up of separate panels, and is the perfect option for larger windows/ doors, sliding doors, or even as stylish room dividers.

They slide easily into place, are a great alternative to Vertical Blinds, and instantly re-vitalise a room. They suit a neat, minimal decorating scheme and combine effectively with Roman Blinds, but also look great as a practical stand-alone option. You can update the colour or fabric to suit the season or your own evolving taste – in fact, we recommend it!

Panel Glides are a great option whether for home or the office. Their clear, streamlined and minimalist appearance make them a slick choice for any space, and you can personalise them by choosing from an array of fabrics, designs and colours.

**TIP:** Panel Blinds are a great product to coordinate with Roller & Roman Blinds. Choose the same, or other complementing fabrics to add texture to your space.

### Specifications:

#### Tracks:

3, 4 and 5 channel track available

#### Track Colours:

Wand operated: White, Birch White, Silver Grey, Anodised and Black

**Panel Sizes:** Width divided by number of tracks, add 70mm overlap approx

We recommend a maximum panel width of 1000mm

### Features and Benefits:

- ✓ Enhanced versatility and flexibility
- ✓ Flat fabric panels that are lightweight and easy to operate
- ✓ Easy to quickly and cheaply replace damaged panels
- ✓ Update the colour or fabric to suit your evolving taste
- ✓ Blockout, translucent and sunscreen fabric options
- ✓ Panels move freely and individually
- ✓ Child-safe wand operation

# Vertical Blinds

## Enjoy the ultimate in light control

Vertical Blinds could well be one of your earliest recollections about blinds. Over the years, you've likely seen them used in many different spaces. That's because they're probably one of the oldest and most commonly found types of blinds around.

It's also probably because Vertical Blinds offer the ultimate protection, flexibility and privacy, along with a modern and clean look that can be switched up using a range of stunning fabrics.

Versatility and ease-of-use are essential to any effective window covering solution: Vertical Blinds, with their smart fabric blades, give you that versatility.

With simple, easy-to-use fingertip controls, you can rotate the individual slats 180-degrees with complete command over the level of light and privacy afforded.

They can be left partially open to allow for varying light levels, or drawn neatly to the side, letting sunlight flow freely into your home. Our innovative tracking system ensures the blades draw smoothly and evenly, making them a breeze to operate too.

With a vast and modern colour selection and various fitting options, our extensive range of choices will have a combination to suit your needs.

Our Vertical Blinds are also easy to clean, and are a cost-effective alternative for investors looking to rent out their properties.

**TIP:** Try mixing and matching plain and patterned louvres to achieve a bespoke blind that suits your taste.

### Specifications:

#### Wand Control:

Single wand to control the entire operation – a twist of the wand opens and closes the blinds, while a push will move the blades to one side. The piloting wand allows for more simplified operation and offers ultimate child safety

#### Blade Bottom Weights:

Weights to hold the vertical blades straight - available in Chained, Chainless or Sewn in options

#### Blade Sizes:

To incorporate all styles and designs, blades are available in 89mm and 127mm

#### Cord Control:

A cord control just like a cord-drawn curtain can be used to move the blades to one side, while the chain functions the opening and closing motion

### Features and Benefits:

- ✓ Sun protection and privacy
- ✓ Lifetime warranty
- ✓ Full light and view control
- ✓ Largest fabric range in region
- ✓ Cost-effective and great for investment properties too

# Honeycomb Blinds

## Save Energy In Style

A lot of our design inspiration tends to come from nature; the igloo is best structured to protect us from the cold, while dug-outs in Australia's sprawling deserts keep inhabitants cool and safe from the blistering heat. Other creatures such as bees build their hives for practical reasons too. The honeycombs are carefully built in a hexagonal shape to care for their young, and store that delicious honey.

But have you thought about why it's specifically hexagonal and not any other shape?

It's because this shape allows the bee to construct a comb using the least amount of wax possible, while storing the most amount of honey at the same time. In other words, saving as much energy as they can.

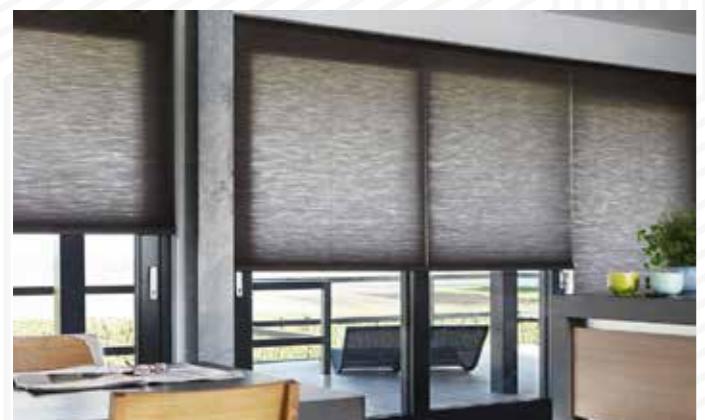

Our Honeycomb Blinds (also known as Cellular Blinds) draws inspiration from this ingenious setup and brings it to your home. With its exceptional temperature regulation and superior design, this product is tested and proven to reduce your energy bills by at least 30%. A big claim, we know, but you'll be astonished at how much Honeycomb blinds can save you.

**Medium:** Up to 17%+ in energy savings with 25mm Single Cell Translucent fabric

**High:** Up to 26%+ in energy savings with any 45mm Single Cell or Double Cell Translucent fabric

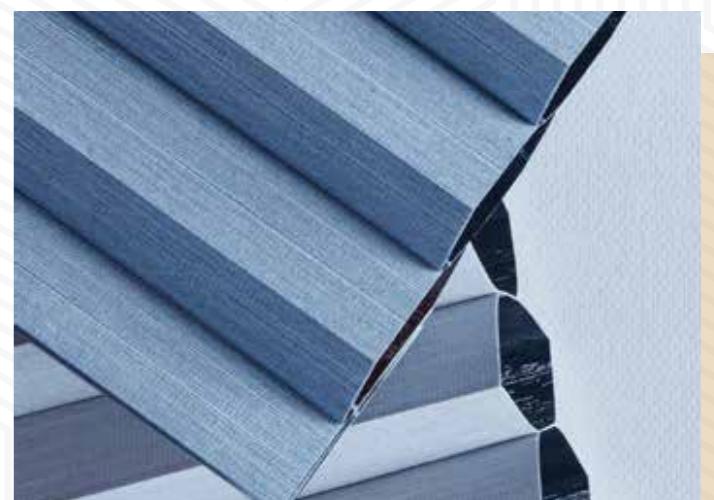

**Very High:** Up to 28%+ in energy savings with 25mm Single Cell Blockout fabric

**Excellent:** Up to 32%+ in energy savings with any 45mm Single Cell Blockout fabric

### Features and Benefits:

- ✓ Most energy-efficient window blinds
- ✓ Child & pet safe (cord-free control options)
- ✓ Smart Construction: Perma-cell technology so cells retain their shape
- ✓ Light gaps as low as 2.5mm vs. 10-15mm avg. with other market products
- ✓ Quiet Achiever: Dulls outside noise by up to 55%
- ✓ High resistance to heat
- ✓ Incredibly versatile: They open from the bottom and the top unlike regular blinds, and fit most window shapes and sizes
- ✓ Both visual and practical benefits: Sleek design in a range of colours
- ✓ Cords tuck away cleanly
- ✓ Honeycomb blinds can also be shaped by the Watson Team for custom angles and curved windows

### Child Safety:

We understand how curious minds can often get in trouble, which is why every single one of our blinds is built with child safety in mind.

For the ultimate child safe solution, select a cordless operating system such as our Cordless, or Motorised Wirefree systems which feature no loose operating cords.

Find out more about these systems under 'Control Options'.

#### Child Safety Tips:

Ensure items that a child could climb on are away from windows that have cords or chains. For example: Cots, beds and chairs

Ensure cords are secured as installed; loop around the cord cleat at all times

*\*All Honeycomb corded window coverings come with child safety operation warning tags and safety cord cleats for holding operating cords.*

### Selecting Your Perfect Honeycomb System

With just a few simple steps, you can breathe life into any room with a new Honeycomb shade made and installed to your exact requirements.

### 1. Choose Your 'Cell Size':

#### 10mm:

Compact air pocket with classic narrow projection, saving you up to 28%+ on your heating costs.

#### 20mm:

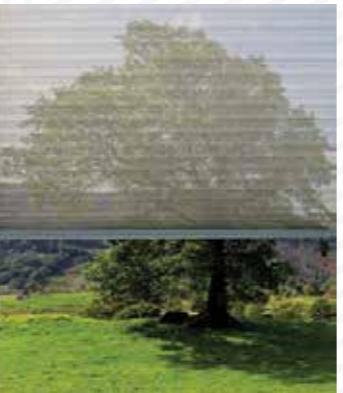

Larger cell for greater energy efficiency with up to 32%+ savings on your heating costs.

#### Double cell:

Save up to 26%+ on your heating costs with a unique styling of a side-by-side Double Cell shade.

### 2. Choose Your Fabric Opacity:

#### Sheer:

Gently filter light while still enjoying the view through the windows

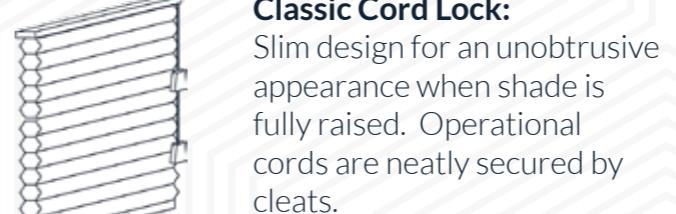

#### Translucent:

Soften harsh light while maintaining privacy and protecting your furnishings from UV fading

#### Blockout:

Provides excellent energy efficiency and ultimate light and privacy control

#### Classic Cord Lock:

Slim design for an unobtrusive appearance when shade is fully raised. Operational cords are neatly secured by cleats.

#### Easyrise:

Features a continuous cord loop operation with a geared clutch. Offers smooth operation for lifting even the largest shades.

#### Cordless:

Raises and lowers shades at the bottom bar. Provides an uncluttered look and is the ideal solution for child safety.

#### Motorised Wirefree:

A motorised control system allowing shades to be operated with the touch of a button.

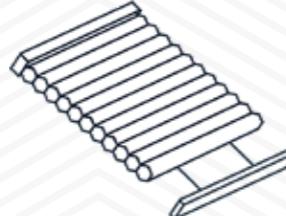

### 4. Choose Your Design Option:

Depending on where your blind will be installed, you can choose a design option that's perfect for your needs.

#### Day-Night Blinds:

Enjoy the best of both worlds when combining a sheer and blockout fabric on the one shade.

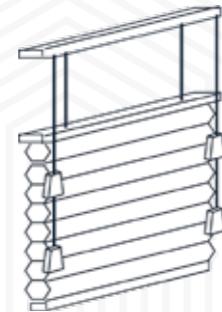

#### Skylights:

Ideal for skylights and sloping or hard-to-reach windows. Depending on fabric, we can create a complete blockout solution.

#### Specialty Shapes:

For arched and angled windows.

#### Top Down / Bottom Up:

Can be raised from the bottom as well as lowered from the top, for complete light and privacy control.

### Dress It Up:

Now you've constructed the structure of your blinds, it's time to give it some personality.

Our fabric collection has been designed with style and performance in mind. When choosing the perfect fabric, there are some questions worth answering:

- ✓ How much light do you want to filter in?
- ✓ Do they need to provide a high level of insulation?
- ✓ Will they be a focal point or blend with your furnishings?

### Automate Your Blinds:

With the wirefree motorised system you literally only ever need to move one finger. Clever wireless technology allows the shades to be operated with the single touch of a button.

- ✓ No complicated wiring
- ✓ Easy to install, operate and maintain
- ✓ Ultimate in child safety
- ✓ Perfect for hard-to-reach windows
- ✓ Quiet motor operation: Battery and standard power supply options
- ✓ One touch operation via infrared/radio remote control or wall panel
- ✓ Automation available through Amazon Alexa, Google Home, and Apple Home Kit for app control.

# Glideshift

## Honeycomb Shades

We love Honeycomb Blinds so much, we made them horizontal!

Experience the original and the best with the versatility of Honeycomb Blinds complete with the convenient Glideshift Control Option.

Designed to offer stunning practicality for any and every space, the Glideshift boasts incredible insulating properties. It's all the same, except they work horizontally!

### Introducing the Glideshift Control Option

Arena Honeycomb Shades are now available with Glideshift, a specially designed control option for use with sliding and patio doors as well as wide expanses.

#### Design Options:

Glideshift offers 4 design options to suit all types of door openings or spaces:

- Side Stack:** A single direction movement; either left or right.
- Day-Night:** A combined blockout and sheer solution for light and privacy control.
- Split Stack:** A dual system with moving centre rails from centre to edge.
- Travelling Centre Stack:** An unrestricted movement left or right for complete or partial opening from either edge.

#### Why Wait?

Talk to us today so we can help you create the perfect custom-made Honeycomb blinds, manufactured right here in Australia, seamlessly fitted by the industry's most experienced window furnishing experts.

#### Specifications:

##### 20mm Single Cell - Sheer

Width: Min: 300mm - Max: 3050mm  
Drop: Min: 600mm - Max: 3050mm  
Max Area: 9.3 sq/m

##### 20mm Single Cell - Translucent

Width: Min: 300mm - Max: 4270mm  
Drop: Min: 600mm - Max: 3050mm  
Max Area: 13 sq/m

##### 20mm Single Cell - Blockout

Width: Min: 300mm - Max: 4270mm  
Drop: Min: 600mm - Max: 3050mm  
Max Area: 11 sq/m

#### Features and Benefits:

- ✓ Cover the entire expanse of a sliding door with one blind
- ✓ Each side can be operated independently with a handle
- ✓ No pesky cords, chains, or wands
- ✓ Makes for a beautiful look combined with lasting durability & simple operation
- ✓ Partners with a selection of our stylish and functional energy fabrics
- ✓ A variety of design options available
- ✓ Control room temperature without compromising on style
- ✓ Easy to operate

# Plantation Shutters

## Modern, Timeless & Functional Design

For looks that effortlessly stand the test of time, it has to be shutters.

Create a space you'll love coming home to with our stunning selection of made-to-measure shutters. With their simultaneously modern, timeless and functional design, you can add value and style to your most valuable asset.

### Why Choose Watson Shutters?

- Create a sense of space and maximise your natural light without losing privacy
- Made to suit any measurement or window specification (including circles, arches, triangles etc.)
- Painted or stained to match your existing color scheme
- Resistant materials that won't warp or peel
- Available in Timber, PVC, Cedar, and Woodlore/Woodlore Plus
- Suits both windows and doorways, including bathrooms, bedrooms, living rooms, bay windows, and sliding doors
- We partner with some of the most renowned brands in the Shutter market, including Norman Australia

### Specifications:

- ✓ Protective coating prevents fading & cracking
- ✓ Child and pet safe with no cords
- ✓ Energy Efficiency - Perfect heat insulators
- ✓ Up to 20 year Quality Guarantee
- ✓ Easy operation - Motorisation available
- ✓ UV resistant colours
- ✓ Available in a range of finishes
- ✓ Ultimate light control & noise reduction too

## What's Your Style?

There are literally hundreds to choose from, but not to worry, our expert consultants have experience working with every shape and size of window, and will recommend the best fit for your home.

### Bi-Fold Shutters:

Combining multiple panels in one smooth motion, this style is commonly used on doorways or wide windows giving the area a stunning look.

### Sliding Door Shutters:

When we said they'd suit any type of door, we meant it. Give your home a makeover that's 'au naturale'.

### Bay Windows:

Ultimate control over light, sight, and privacy, by operating the top and bottom panel separately. Curl up with a good book and warm cuppa, in just the right environment with just the right light. Bliss.

### Tier-on-tier Shutters:

Bring a touch of Parisian chic into your humble abode with tier-on-tier plantation shutters, and feel like you're a world away.

# Venetian Blinds

## Functionality and flexibility for all occasions

You can't help but fall in love with Venetian Blinds all over again: Classic style, modern traits.

Their ability to close tightly while also opening all the way up means you get to be the master of light, controlling the ambience of the room according to the mood and occasion.

They also complement the existing internal décor of your home, saving you the hassle of finding matching curtains.

With practical designs available in Timber, PVC, and Aluminium styles, our Venetian Blinds are a refreshing alternative to contemporary window treatments and let you add a degree of class and sophistication to any room.

### Real Wood

Timber venetians give you a warmer feel and you can choose from an array of durable and natural timbers.

### Timber Venetian Specifications:

#### Timber - Manual

**Blade Sizes:** 46mm, 60mm, 84mm (Cedarline 2.5) and 50mm, 65mm (Ultrawood 2.9)

**Maximum Drop:** 4000mm

#### 25mm Double Glazed 2.7:

**Maximum Width:** 3300mm

**Maximum Drop:** 2500mm

### Premium Wood-Look

You'd be forgiven for thinking PVC wouldn't look that great, but our PVC options are perfect for bathrooms and kitchens, are water-resistant, versatile, and best of all, look just as good as their siblings. We've made sure of that. Did we mention double the longevity at a fraction of the cost?

### Premium Wood-Look Specifications:

**Blade sizes:** 63mm and 50mm

### Features and Benefits:

- ✓ Sun protection and privacy
- ✓ Maintenance free and water-resistant
- ✓ Available in timber, aluminium or PVC
- ✓ Up to 5 years warranty
- ✓ Full light and view control
- ✓ Motorisation available

# Supporting Local

At Watson, supporting local isn't just a tagline; it's woven into the fabric of who we are.

**Proudly Australian-made**, our commitment to supporting local is evident in every aspect of our business. From manufacturing blinds, curtains, and awnings in our own factory, to employing **over 150 skilled individuals from local communities**, giving back to local charities and sponsoring schools and clubs, we prioritise the growth and well-being of our local economy.

Our investment in Hume isn't just about a facility; **it's about nurturing a thriving local ecosystem**.

**When you choose Watson, you choose more than a product – you choose to support and strengthen the bonds of our local communities.**

## Focus on Australian Quality

With a focus on controlling quality, and manufacturing in Australia from the start, our blinds, curtains and awnings are still made in our own factories.

The latest being a state-of-the-art facility in Hume, ACT
